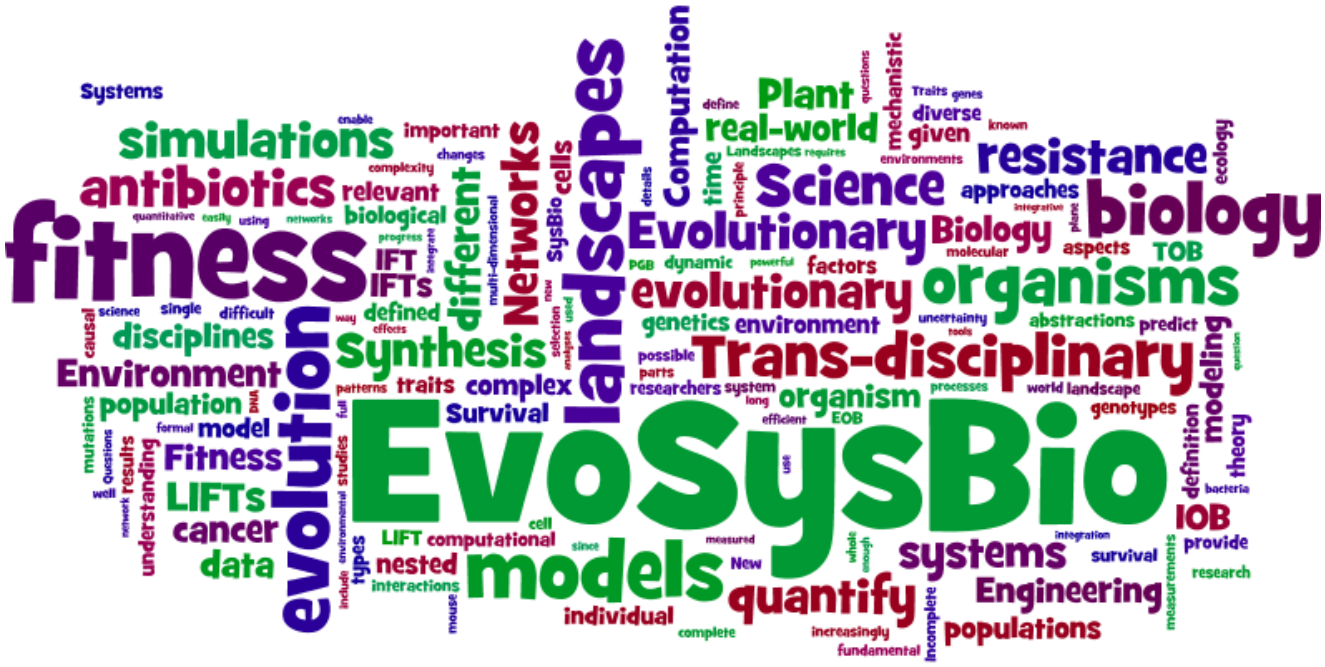
Workshop on EvoSysBio and Modeling

Madison 2016

Where Systems, Biology, and Evolution Meet

August 4 & 5

Join a **trans-disciplinary dialogue** to discover exciting new questions and insights in Biology and beyond!



Sessions on

- Antibiotics Resistance
- Modeling Biology
- Network Biology
- Inspiring Trans-disciplinarity

Registration & Details

Present your work, get inspired

Confirmed Speakers

Mentewab Ayalew
Spelman College, Atlanta, GA
Invited Speaker

Laurence Loewe
UW-Madison

John Yin
UW-Madison

Kate Scheuer
UW-Madison

Eric Wright
UW-Madison

Ye Xu
UW-Madison

Brian McLoone
UW-Madison

Wisconsin Institute for Discovery

Evolutionary Systems Biology aims to build bridges between rigorous mechanistic models in intra-organism biology and trans-organism biology, drawing on results from many disciplines.
